

"CALLUS CORNS"
LIFT RIGHT OFFDoesn't hurt a bit to lift them
off with fingers

Don't suffer! A tiny bottle of Frezzone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Frezzone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.—Advt.

SUNDAY WORLD WANTS WORK WONDERS

**CEREALS IN PLENTY
MAY BRING PEOPLE
THE 5-CENT LOAF**Evening World's Demand
Proved Reasonable by the
Wheat Supply.By P. Q. Foy.
(Special Food Expert of The Evening World.)

The extremely heavy holdings of cereals in the United States is an irrefutable argument in favor of a cheaper and a better loaf of bread as demanded by The Evening World. The policy of the Department of Agriculture in its efforts to make a profit on the wheat crop of the United States would result in great hardships to the average consumer and wage-earner. Latest advices from Australia indicate a surplus of wheat in the hands of the imperial government of 55,000,000 bushels, in addition to 550,000,000 pounds of flour available for shipment to England when bottoms can be secured. The price of wheat to the millers in the United States should be fixed where the consumers can get a wholesome loaf of bread at or near 5 cents per loaf.

The feature of the butter market

was a decline of 2 cents per pound, and still lower prices expected before the end of the week.

Receipts of eggs at New York on Tuesday were 44,000 cases of 30 dozen each, while those at Chicago were 73,000 cases, yet speculators are putting these eggs in storage at a rate that is rapidly crowding the consumers to a point where they will soon have to deny themselves the use of these fresh, wholesome eggs. When these eggs are taken out of storage next winter, after paying the various imposts, such as speculators' profits, interest, insurance and storage, they must be retailed to the consumers at 55 to 70 cents a dozen.

The average housewife can save herself from the extortions of these speculators by preserving a sufficient quantity in waterclosets to use next December and January, when few fresh eggs can be had.

Retailers of meats are complaining of the new system put into practice on Monday where dealers are compelled to buy dressed lamb and mutton with the lights, liver and heart weighed in with the carcass. One large dealer in West Washington Market had this to say about it: "The Government compelled the beef companies to remove the plucks, but now that restriction is raised and the companies are back at their old tricks. The lights, liver and heart weigh about 2½ pounds and when charged at the price of hams cost the dealers from 50c to \$1, who must sell them for 15c, losing 50 to 55c, which automatically advances the price of the lamb 5c per pound."

It was also rumored along Tenth Avenue that the gimbel sticks would soon be weighed in with the lambs, which will add another cent per pound to the cost, which will ultimately fall on the consumer.

Fresh salt water fish are coming into the market and prices are lower on most varieties.

The following are some of the wholesale prices on the leading

Most of the prices in the above list may be lower by Saturday, and consumers should keep posted on prices which are leaning in their direction.

The constant hammering of The Evening World has brought about a change of front on the part of the Beef Trust and the butter speculators and to-day the price of butter dropped in the wholesale market 2 cents a pound, and if the chain stores do their duty by their customers Friday and Saturday of this week the consumer will be able to buy butter at retail throughout Greater New York at a price not exceeding 60 cents a pound.

ASK MORE SHEEP; LESS DOGS

Wool Growers Object to Canine Running Wild.

PHILADELPHIA, April 29.—A general condemnation of dog laws and a desire to advance public interest in the sheep raising industry featured the addresses and reports at the opening session of the second National Sheep Conference of the More Sheep-More Wool Association here to-day. Laws prohibiting dogs from running wild were advocated by a number of the speakers.

C. S. Plumb of the Ohio Wool Growers Association, said that more than \$7,000,000 had been paid out by his State since 1850 to owners of sheep killed by dogs.

**All My Children Take
Father John's Medicine
And Depend Upon This Pure
Food Tonic For Their
Good Health.**

"My daughter Mary has been taking Father John's Medicine and she is getting along fine. I have found that Father John's Medicine is the best medicine I ever tried. My

children all love it. My sister advised me to use it." (Signed) Mrs. De Franco, 324 Pacific St., Paterson, N. J.

All over the country mothers agree that Father John's Medicine is what they depend on to keep their children well and strong; to give them strength to ward off colds and coughs—and because it is guaranteed free from alcohol or dangerous drugs, it is the established family medicine. It has a history of more than sixty years of success.—Advt.
